

**MVP is almost one  
million Veterans strong**

Dear Robert Basye,

Thanks to your participation in the Million Veteran Program (MVP), we are about to make history! We are 25,000 Veterans away from the million milestone. **We're asking for your help to reach this goal by Veterans Day.**

Because of you, MVP has already made genetic and health discoveries that help provide better care for all Veterans.

- **Mental Health:** Identifying new screenings and treatments for conditions such as PTSD, depression, anxiety, suicide, and substance use disorder.
- **Cancer:** Developing better ways to predict cancer in different Veteran populations.
- **And more:** Read about MVP's research at [www.mvp.va.gov](http://www.mvp.va.gov), including findings on **heart disease, diabetes, Gulf War Illness, kidney disease, hearing and vision diseases, osteoarthritis, and Parkinson's disease.**

How can you help? Share your MVP story with other Veterans and invite them to join MVP at [www.mvp.va.gov](http://www.mvp.va.gov) or call 866-441-6075 for more information.

Thank you for being part of MVP and making history together.

The MVP Team

Veterans don't need to receive care at VA to participate.

Visit us at [www.mvp.va.gov](http://www.mvp.va.gov).
